

ST200 Stand Assembly Instructions

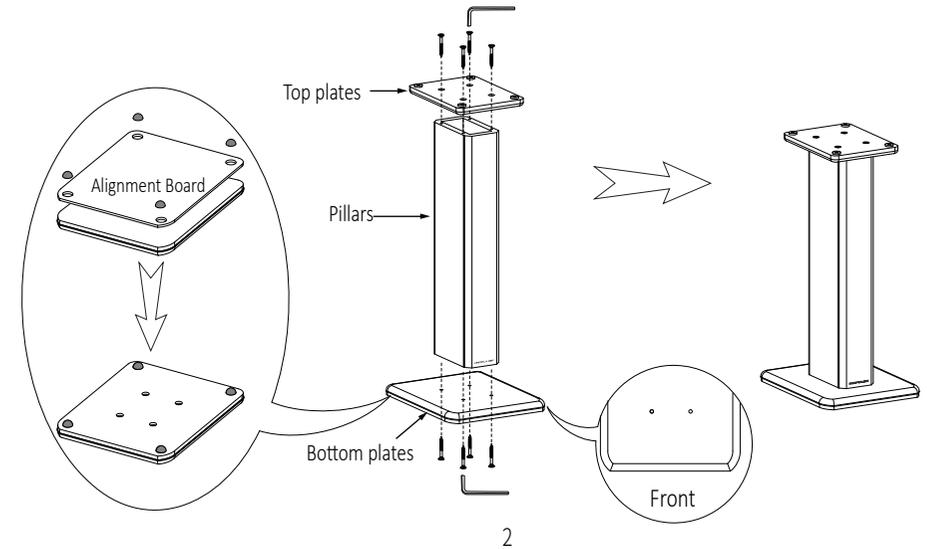

1. Parts list

1

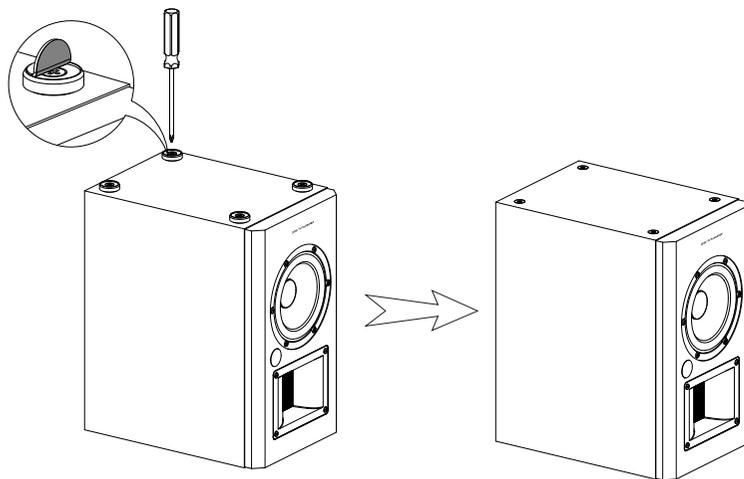

2. Assembly

- A. Using alignment plate for positioning, place rubber gasket on bottom plate and adhere firmly.
- B. Use Allen key and the 6x 50mm wood screws to lock the bottom and top plates onto the pillar.

3. Secure speaker on stand

- A. Carefully remove the rubber feet on speaker. Use a screw driver to remove the metal feet. Please keep the metal feet and screws in a safe place for future use.

- B. Place speaker on stand, making sure the holes on bottom of speaker align with the 4 holes on the top plate. Use the M6x30mm machined screws to lock the speaker securely onto the stand.
